Subject: HH case assignments for week of May 31

Hi,

Below are the case assignments for the first week of June. We wanted to alert you right away about next week's assignments since many of us will be taking a break for the Memorial Day weekend.

Please remember that there is no chemistry meeting on Monday, and thus there is no pre-hazard meeting on Thursday, 6/3. Per our 5/26 discussion yesterday with the team, [REDACTED] and I made the case assignments for next week. As you know, [REDACTED] will be unavailable starting the week of June 7<sup>th</sup> and thus she will not have additional case assignments. She is now focused on wrapping up her work by Friday, June 4.

[REDACTED] will make slight changes in the composition of Part A/B rotations covering the work, including bringing assessors with toxicology background to help with the work for the next four weeks and considering work schedules and leave plans for June. This explains why we are not releasing the full schedule for the month of June. We will keep you posted and will try to finalize the calendar by next week. Please send us [REDACTED] an email if you would like to alert us about aspects of your work schedule in June that we should be aware of while we finalize the June calendar by Tuesday, June 1.

Thanks and have a great weekend!
